

BRYAN BELIEVES NATION SHOULD OWN JEFFERSON HOME

Commoner for Legal Measures If Monticello Is Not Given to Government.

William J. Bryan has entered actively into the fight to have the Government acquire Monticello, the home of Thomas Jefferson, near Charlottesville, Va., either by gift or by process of law. Mr. Bryan stated before the House in Washington for Florida, that he was heartily in sympathy with the movement headed by Mrs. Martin W. Littleton to secure ownership of the old mansion for the Government.

Monticello is now owned by Jefferson M. Levy, Representative from New York, who has refused to either sell or give the Government possession of the property. Mr. Levy's father provided in his will that Monticello should become the property of the public, but his heirs contested the will successfully.

Mr. Bryan stated before he left the city that he had noticed that Mr. Levy again gave notice that he would retain ownership of Monticello.

"I had hoped," he said, "that Mr. Levy would sell the property to allow the Government to become owner of the home of Jefferson. I have suggested to him that while he might retain life interest in the place, if he sentimentally attached to it, he should allow the Government to have it."

"This is about all that he could ask in regard to Monticello unless he wishes to maintain in his family a monopoly of the prestige that might come from the ownership of Monticello. If possible, I would like to see Monticello secured by process of law, in which case Mr. Levy would receive full value for his property."

Mrs. Frank Anthony Walker, of Norfolk, Va., custodian of flags of the United States, stated today that she had been misquoted in regard to a statement she made about Monticello.

"What I said," said Mrs. Walker, "was that it was Mr. Levy's right to do with his property as he saw fit, but that I thought he would select the daughters of the Confederacy to be heirs to Monticello."

ALLENS GET RESPITE TILL DECEMBER 13

Governor Mann Delays Execution of Death Penalty for Mountaineers.

RICHMOND, Va., Nov. 19.—Governor Mann of Virginia today respite until December 13, Floyd Allen and his son, Claude Swanson Allen, both condemned to die on Friday for their complicity in the murders at Judge Massie's court room in Hillsville, Va. The stay was unexpected.

Governor Mann issued a statement explaining that he had delayed the stay at the trial of the mountaineers. Judge Staples said that counsel for Claude Allen, the son, had asked for a stay of the United States Supreme Court, and would not have time to perfect his writ if the execution was not stayed.

The Rev. George W. Daniel, one of the "Allens" spiritual advisers, had a long conference with the governor today, earnestly pleading for clemency. Although no request was made of the governor for the stay, which to appeal Floyd Allen's case to the Supreme Court, the executive thought it would be only an act of common sense to give the father a stay of execution at the same time that he held up the execution of the son.

Eats Freely But Has No Dyspepsia

Takes a mild laxative with good result and insures his comfort and pleasure.

Fortunate is the man who can eat "anything" without suffering the tortures of dyspepsia, but as few are so fortunate care should be taken in the matter of diet. Eating slowly, masticating the food thoroughly and taking a short walk after the heavy meal of the day will do much to insure a satisfying digestion. Any grown-up person ought to know the peculiar foods that do not agree, and these should be avoided.

When these common-sense aids fail, the next thing to do is to take a digestive tonic with laxative properties, and there is none better than Dr. Caldwell's Syrup Pepsin. It contains the greatest of all aids to digestion, good pepsin. It has other ingredients that act mildly on the bowels, and combined it forms a combination for the relief of dyspepsia or indigestion that is unsurpassed.

Its action is to tone and strengthen the stomach and bowel muscles so that they can again do their work naturally without outside aid, and when that happy moment comes a medicine can be dispensed with. It is the best remedy obtainable for any disorder of the stomach, liver and bowels, for dyspepsia, constipation, biliousness, headache, drowsiness after eating, gas on the stomach, etc. Thousands of users will testify to this, among them Mr. Robert H. Allen, Long Island City, N. Y., and Mrs. M. M. Allen, 117 Maple St., Bridgeport, Conn.

Syrup Pepsin is sure in its results, and a vast improvement over chewing or swallowing tablets and lozenges, or taking cathartics, salts, etc., all of which are harsh and nauseous and at best only a temporary relief. You can obtain Syrup Pepsin at any drug store for fifty cents or one dollar a bottle. If no member of your family has ever used Syrup Pepsin and you would like to make a personal trial of it before buying it in the regular way, it will do to Dr. W. B. Caldwell, 412 Washington St., Monticello, Ill., and a free sample bottle will be mailed you. Results are always guaranteed or money will be refunded.

SCOTCHMEN PLAN TO ORGANIZE CLAN AS BAGPIPES PLAY

MacLennans Prepare for Session to Be Held Next Monday.

"Men, but that was fine." This was the exclamation from several scores of Scotch throats near the hour of midnight last night when the last wall came from the bagpipes, or "chanters," as Scotchmen call the instrument, of "Jack" Tammison, of Sutherland Shire, Scotland.

The occasion was a preliminary meeting to the formation next Monday night in the MacLennan Hotel, in Thirteenth street, of the "MacLennan Clan," officers of the clan, which will be affiliated with the Order of Scottish Clans, will be elected and application for the charter made. The books are being kept open for charter members.

COLD STORAGE AT CENTER MARKET WILL BE FULLY PROBED

Board of Trade Committee Plans Thorough Investigation Into Conditions.

A thorough probe into cold storage conditions at Center Market is to be made by the Committee on Public Health of the Board of Trade before that committee submits its report. The immediate cause of the investigation is the question of whether or not the committee will act favorably on a bill which would prohibit the cold storage of eggs, meat, fish, etc., in the District for a longer period than thirty days. It is said this bill has met with a storm of protest from the cold storage merchants. The cold storage question is a comparatively new one, and the committee has had the matter before it for some time.

At a meeting of the committee in the Board of Trade rooms last night it was decided to select Center Market next Thursday.

The committee strongly urged a measure to create a bureau of recreation under supervision of the Commissioners to look after nothing but playgrounds, other forms of recreation in the District, and to establish other such plants in sections of the city where they are said to be badly needed.

The committee believed the bacteriological laboratory of the District should be greatly enlarged, and will incorporate this belief in its report. It is said the present bacteriological laboratory is below the standard. Proper discrimination of milk and water in the District is said to be impossible with the present equipment.
